*You'll be the most popular person on your hurricane-ravaged block with the WaterB.O.B.*

that requirement. The WaterB.O.B. is a water-containment system that stores up to 100 gallons of fresh water in your home's bathtub. Constructed out of heavy duty food grade plastic, the WaterB.O.B. keeps water clean and fresh. It also comes with a siphon pump to easily distribute the water. This is a product that is nice to have but I hope you never have to use it. It is available for purchase online for \$24.95.
